

Scanner

M4099D Production Document Scanner

Fujitsu's M4099D scanner delivers the ultimate in performance, image quality and reliable paper handling.

- Fast scan rates of up to 90 pages per minute simplex or 180 images per minute duplex
- Revolutionary paper path design with break roller separation technology
- Infrared document double-feed detection feature with paper thickness adjustment
- Duplex red, green and blue color dropout feature makes forms processing easier than ever
- ScanRight™ IPC-3D dramatically improves image quality and increases OCR/ICR recognition rates
- Standard dual SCSI and Video interfaces increases flexibility

The Fujitsu M4099D scanner includes a long list of features that make it the ideal choice for anyone requiring high-performance production-level scanning. From forms processing to service bureau applications to centralized enterprise and capture applications, the M4099D scanner delivers the high quality, superior performance and unprecedented reliability your business demands.

Blazing Speed. Finer Images. Greater Productivity.

With fast scan rates of up to 90 pages per minute simplex and 180 images per minute duplex, the M4099D scanner ensures that you're always at peak productivity. The M4099D scanner also comes standard with both a SCSI and Video interface on every unit for compatibility with most hardware interface boards. The M4099D scanner also includes industry-standard TWAIN and ISIS drivers for use with a wide variety of scanning applications and software solutions. Its 400 DPI optical resolution and 10-bit internal grayscale capabilities deliver finer, more detailed images.

Unprecedented Paper Handling

The M4099D scanner was designed to handle the widest range of paper types and sizes with the least amount of hassle so you can keep on scanning. Its revolutionary automatic document feeder and paper path design enable you to reliably handle documents of different sizes and weights. The scanner offers the ability to choose from five paper thickness settings provides superior handling when scanning extra light or heavy documents.

To increase the integrity of your batch processing, the M4099D includes new break roller document separation technology as well as Infrared double-feed detection which helps to eliminate document double-feeds. You never have to worry about missing important images.

Automatic Color Dropout

Forms processing is easier than ever with the M4099D's color dropout features. Easily configured through the scanner's control panel or software configuration, the M4099D will automatically drop out red, green or blue. It can also be configured to drop out different colors on the front and back with just one setting.

ScanRight IPC-3D Dramatically Improves Image Quality

Standard on every M4099D, Fujitsu's ScanRight image processing technology delivers powerful tools for quickly and easily performing advanced functions

such as background removal, text enhancement, image emphasis, noise removal and automatic separation. Use these tools and you'll enjoy all the benefits of improved image quality and higher OCR/ICR accuracy rates.

Maximizes Your Up-Time

Fujitsu backs the M4099D scanner with a one-year on-site limited warranty. It's our commitment to providing you the ultimate in performance, reliability and service. Also available during the warranty and post-warranty period is ScanCareSM, the industry's leading full preventative maintenance program to keep your scanner operating at peak performance. Priority Service* may also be purchased separately as an upgrade to the existing standard one-year on-site product limited warranty or as a post-warranty service contract. Call (800) 626-4686, option 3 for further details about the limited warranty, ScanCare and Priority Service. Finally, to make sure that downtime is kept to a minimum, every M4099D scanner comes with a coupon for one free cleaning kit and one free consumables kit.

*Available in select cities only. Call (800) 626-4686 for further details.

About Fujitsu Computer Products of America

Fujitsu Computer Products of America is a wholly owned subsidiary of Fujitsu Limited, one of the world's largest computer companies with \$43.3 billion

in worldwide revenue in fiscal year ending March 1999.

Benefiting from Fujitsu Limited's \$3 billion annual investment in research and development, Fujitsu Computer Products provides innovative solutions for the U.S. marketplace. Current product offerings include: high performance hard disk drives, tape drives, magneto-optical drives, high volume scanners, and printers.

M4099D Production Document Scanner Specifications

Functional Specifications	
Technology	Color CCD (charge-coupled device) image sensor
Resolution	200, 240, 300, 400 dpi (user selectable)
Halftone patterns	Dither, error diffusion
Scanning speed	Simplex 90 pages per minute
(@200 dpi, A4 & Portrait size)	Duplex 180 images per minute
Document feeding mode	Automatic document feeder (ADF)
ADF capacity	1,000 sheets (selectable 250, 500)
Document size	Minimum A7 (2.875 in. x 4 1/8 in.)
	Maximum A3, Double letter (11.7 in. x 17 in.)
Interface	Video, SCSI-2, & 3rd Party Slot
Image type output	Binary; halftone; grayscale
Physical Specifications	
Power requirements	100-120 VAC, 50/60Hz, 200-240 VAC, 50/60Hz
Operating environment	Temperature 59° F - 95° F (15°C-35°C)
	Relative humidity 20%-80% (non-condensing)
Power consumption	250 VA or less
Dimensions (H x W x D)	23.1 in. x 27.1 in. x 21.2 in.
Weight	Less than 143 lbs.
Reliability Specifications	
Limited warranty	One-year on-site service
Software driver support	ISIS and TWAIN driver included (Win 95/98/NT), Kofax Adrenaline
Backwards compatibility	Fully emulates the M3099G+ model
